Professional Summary

Experienced Web Developer with over 5 years of expertise in both FrontEnd and BackEnd development. Proficient in building dynamic, responsive websites using modern tools and frameworks. Skilled in Python, PHP, and advanced web technologies, with a strong focus on performance optimization and delivering innovative solutions. Successfully led the development of 'Courses,' an educational platform with over 500 active users. Passionate about leveraging technology to solve real-world problems and enhance user experiences.

Career Objective

Seeking to join a forward-thinking tech company as a Web Developer to contribute innovative solutions, optimize web applications, and create impactful user experiences. My goal is to grow within a collaborative environment and apply my expertise in modern web technologies to achieve measurable business success.

Work Experience

FrontEnd Web Developer | ByWave Code (2024 - Present)

Designed and developed user-friendly, responsive web interfaces using React and Tailwind.

Collaborated with cross-functional teams to deliver high-quality projects within tight deadlines.

Optimized website performance, reducing loading time by 20%.

Member | Marin TeamEG (2024 - Present)

Contributed to innovative software solutions in a collaborative team environment.

Participated in brainstorming and developing cutting-edge features for various projects.

Freelance Web Developer | Self-Employed (2020 - Present)

Successfully built and managed over 10 websites, achieving a 30% average increase in traffic.

Developed 'Courses,' an educational platform serving 500+ users, utilizing PHP and MySQL.

Implemented API integrations to enhance user functionality and improve scalability.
